OILPORT 50 KG AIR AIR GREASE PUMP

Air Grease Pumps are used in chambers, tanks, etc. thanks to the compressed air coming from the air compressor. It is used to transfer the grease inside to the desired location. It is among the most preferred grease equipment with its wheeled structure, easy transportation and 50 kilogram ideal grease capacity. Thanks to its 1/45 compression ratio, it provides an average efficiency of 1.3 kg/min. It is an ideal product with ease of use for small garages, auto maintenance services and work machines.

Working Pressure:	6-8 Bar
Compression Ratio:	1/45
Air Consumption:	85 L/Min.
Yield:	1.3 Kg/Min.
Grease Capacity:	50 Kg.
Hose Length:	2M.
Hose Type:	1/4 R2
Weight:	19 Kg.
Packaged Weight:	21 Kg.
Packaging Dimension (LxWxD):	1120x380x380mm

Product No TDR2000001382
