TRANSET 538 MN FUEL TRANSFER SET

It is used to transfer fuel to another region with high flow rate. In this product, we have MID certified MTS 20 MN fuel meter with mechanical numerator, 500 lt/min fuel pump, ex-proof or standard electric motor upon request, ex-proof electrical junction box and switch for ex-proof motor types, ATEX certified 10 meter for static electricity. meter grounding reel and special fuel filter are used. While it is mounted on a fixed chassis in standard production, it can also be mounted on a wheeled chassis for transportation upon request. The fuel pump to be used can be crawler, star gear or sergeant gear type, depending on the area of use and the specific situation of the project. The mechanical counter is produced for use in industrial environments and provides 0.

Counter:	MTS 20 MN Fuel Meter with Mechanical Numbering
Electric Motor:	380 V, 4 Kw, 1500 Dv/Min, Standard Motor
Pump:	MTS 650 Star Gear Fuel Pump
Grounding Reel:	None
Control Type:	Standard
Capacity:	500 Lt/Min.
Weight:	190 kg.
Dimension (LxWxD):	900x800x1200

Product No MTS1000000109
