The Work We Know

Industrial Equipment

MİTES MTS 20 EN ADBLUE COUNTER WITH ELECTRONIC NUMBERS 55-550 LT/MIN.

MTS series adblue meters, produced by MITES brand from MLB Group companies, are meters with positive displacement and high measurement accuracy. They are designed to be used safely wherever AdBlue measurement is required. Thanks to their design, they are easy to maintain and suitable for a wide variety of applications. When the usage and maintenance instructions are followed, it can be used without any problems for many years and accurate measurements can be taken. The meters consist of a section in which two bladed displacement rotors and one central single blocking rotor rotate synchronously within three cylindrical holes without metal-to-metal contact within the meter element. Each rotor is supported at each end by a plate from which the rotor shafts project.

Product Type:	Adblue
Flow (QMin-QMax):	55-550 L/min
Ambient Operating Temperature:	-5°C / +50°C
Number:	Electronics – MC 02
Weight:	26 Kg
Dimension (LxWxD):	440×490×405mm
Flange Diameter:	2"
Meter Body:	Anodized Coating

Product No MTS1000000288
